## 2. Introduction and application

In accordance with the continuous disclosure obligations imposed on Transurban by the *Corporations Act 2001 (Cth)* (**Corporations Act**), the Listing Rules of the Australian Securities Exchange (**ASX**) and good corporate governance, Transurban has adopted this Continuous Disclosure Policy (Policy).

For the purposes of this Policy, **Transurban** means Transurban Holdings Limited (**THL**), Transurban International Limited (**TIL**), Transurban Holding Trust (**THT**), and their controlled entities. **Transurban Securities** means the shares in THL, the shares in TIL and the units in THT stapled together and quoted on the ASX.

This Policy applies to all of Transurban's directors, senior executives, employees, officers and contractors occupying permanent or part time fixed term contracts, and their associates (collectively, **Personnel**).

## 3. Purpose

This Policy sets out Transurban's policy and procedure in relation to continuous disclosure. It establishes a best practice procedure for compliance with Transurban's continuous disclosure obligations, provides guidance for the identification of material information and requires the reporting of such information to the Company Secretary for review.

This Policy also seeks to make Transurban and all Personnel aware of the penalties for contravening the Corporations Act and the ASX Listing Rules.

## 4. Responsibility for Transurban's continuous disclosure obligations

Ultimate management responsibility for compliance with Transurban's continuous disclosure obligations rests with the Chief Executive Officer (**CEO**) and the Chief Financial Officer (**CFO**). This includes primary responsibility for approving ASX announcements and trading halts.

The CEO and the CFO are also responsible for determining when announcements are to be referred to the Transurban Board for approval and input in accordance with section 6.1.2.

The Company Secretary will act as the **Disclosure Officer**. The Disclosure Officer is responsible for, amongst other things, ensuring that there is an adequate system in place for the disclosure of all material information to the ASX and advising the CEO and the CFO in relation to the disclosure of information reported to the Company Secretary.

The procedures Transurban and its Personnel must follow so that Transurban complies with its continuous disclosure obligations are set out in section 6.

## 5. Transurban's continuous disclosure obligations

### 5.1 The disclosure obligation

ASX Listing Rule 3.1 requires Transurban to immediately notify the ASX of any information of which Transurban becomes aware concerning Transurban that a reasonable person would expect to have a material effect on the price or value of Transurban Securities.

In this context, "immediate" disclosure requires that it be made:

- 'promptly' (that is, as quickly as possible in the circumstances); and
- 'without delay' (that is, without deferring, postponing or putting it off to a later time).

Disclosure under ASX Listing Rule 3.1 is not required where each of the following conditions is and remains satisfied:

- one or more of the following five conditions apply:
  - it would be a breach of a law to disclose the information;
  - the information concerns an incomplete proposal or negotiation;
  - the information comprises matters of supposition or is insufficiently definite to warrant disclosure;
  - the information is generated solely for the internal management purposes of Transurban; or
  - the information is a trade secret; and
- the information is confidential and ASX has not formed the view that the information has ceased to be confidential; and
- a reasonable person would not expect the information to be disclosed.

As soon as any of these elements are no longer satisfied (for example, the information is reported in the media and is therefore no longer confidential), disclosure will generally be required.

ASX Listing Rule 15.7 requires that Transurban must not release this information to any other person (for example, the media or analysts) or post it on its website until Transurban has given the information to the ASX and has received an acknowledgment that the ASX has released the information to the market.

## 5.2 Material effect on the price or value of Transurban Securities

A reasonable person would be taken to expect information to have a material effect on the price or value of Transurban Securities if it would, or would be likely to, influence persons who commonly invest in securities in deciding whether or not to subscribe for, buy or sell Transurban Securities.

In forming a view as to whether a reasonable person would consider information to be material, regard should be had to the external information that is publicly available and previous disclosure to the market (for example, commentary on likely results, or detailed business plans or strategies released to the market). Both quantitative and qualitative factors are taken into account when assessing materiality. Qualitative and quantitative materiality guidelines are set out in Annexure A. A specific list of matters that may be considered material is set out in Annexure B. This list is merely indicative and should not be seen as an exhaustive list of the matters that should be considered for disclosure.

## 5.3 Information in Transurban's knowledge

Transurban becomes aware of information if any of its directors or officers has, or ought reasonably to have, come into possession of the information in the course of the performance of his or her duties as a director or officer of Transurban.

As a result, Transurban will be aware of information if anyone within Transurban knows the information and it is of such significance that it ought reasonably to have been brought to a director's or an officer's attention in the normal course of their duties. In light of this, the procedures outlined in section 6 are critically important so that information is reported, escalated and promptly brought to the attention of the Disclosure Officer.

The disclosure obligation does not apply where the information is "generally available". Information is considered to be generally available if:

- it consists of a readily observable matter; or
- it has been made known in a manner that would, or would be likely to, bring it to the attention of persons who commonly invest in Transurban Securities and a reasonable period for it to be disseminated among such persons has elapsed; or
- it consists of deductions, conclusions or inferences made or drawn from other information that satisfies one or both of the above criteria.

## 5.4 False markets

Under ASX Listing Rule 3.1B, if the ASX considers that there is likely to be a false market in Transurban Securities and asks Transurban to give it information to correct or prevent a false market, then Transurban must immediately give the ASX that information.

The obligation to give information under this Listing Rule applies even where an exception described above in section 5.1 applies.

The ASX does not expect Transurban to respond to all media comment and speculation. However, when media comment or speculation becomes reasonably specific and is accurate, Transurban should consider whether (and the ASX may form the view that) the information is no longer confidential and, therefore, requires disclosure.

When media comment or speculation becomes reasonably specific, but is inaccurate, and there is evidence that the specific rumour or comment is having, or the ASX forms the view that the rumour or comment is likely to have, an impact on the price of Transurban Securities and Transurban has not already made a statement in response, the ASX will usually require a statement so that the market remains properly informed.

## 6. Continuous disclosure procedure

### 6.1 General procedure

#### 6.1.1 Assessing and disclosing material information

The following procedure applies to safeguard against inadvertent contraventions of Transurban's continuous disclosure obligations:

(a) Personnel who become aware of any material information that should be considered for release to the market must immediately notify the Disclosure Officer. Personnel should also notify the Disclosure Officer if they believe any prior disclosure to the ASX is inaccurate or incomplete.

"Material information" is information that:

- is not generally available (that is, the information in question has not been included in any ASX release or Annual Report); and
- may be price sensitive (that is, it would or would be likely to influence persons who commonly invest in securities in deciding whether or not to buy or sell Transurban Securities. This includes information that may have a financial or reputational impact on a Transurban entity).

If the Company Secretary is not available to be notified of any material information, the Group General Counsel will act as Disclosure Officer and details of any material information should be forwarded to them.

(b) The Disclosure Officer will:

- review the material information reported to determine whether the information is disclosable and if so, whether any exception applies;
- notify and advise the CEO and the CFO in relation to the disclosure of any material information;
- if the material information is a matter within the Transurban Board's reserved powers or if the CEO and/ or the CFO consider it appropriate to refer the matter to the Transurban Board, liaise with the Chair and, if necessary, convene a Transurban Board meeting to consider disclosure;
- co-ordinate the actual form of disclosure, having regard to the need for any information disclosed to be accurate, balanced and expressed in a clear and objective manner that allows investors to assess the impact of the investment when making investment decisions. This includes seeking any necessary input or advice from the Chair, the CEO, the CFO, other members of the Executive Committee, the Group General Counsel or external legal advisors, and the Head of Investor Relations, and if required coordinating the verification of the disclosure by responsible Personnel; and

- seek approval of the final announcement from:
  - the Transurban Board (or a Board Sub Committee) if approval of the disclosure is required under section 6.1.2. If it is not possible to convene a Transurban Board meeting within the timeframe required for disclosure, the Chair (or in the Chair's absence, the Chair of the Audit and Risk Committee or the CEO) may approve the announcement on behalf of the Transurban Board; or
  - otherwise, the CEO, or in the CEO's absence, the CFO or the Chair.

All information disclosed to the ASX will be posted promptly on Transurban's website following confirmation of disclosure on the ASX.

The Transurban Board will be provided with copies of all information disclosed to the ASX promptly after it has been disclosed.

#### 6.1.2 The role of the Transurban Board

Transurban Board approval is required in relation to the disclosure of matters that are within the Transurban Board's reserved powers or matters that are otherwise of significance to Transurban, including the following:

- significant earnings upgrades or downgrades;
- distribution policy, guidance or declarations;
- entity-transforming transactions or events;
- significant corporate actions; and
- any other matters that are determined by the Chair, the CEO, the CFO or the Company Secretary to be of fundamental significance to Transurban.

The CEO and the CFO are responsible for determining (in consultation with the Company Secretary) whether a proposed announcement is required to be considered and approved by the Transurban Board. In addition, the Company Secretary or the Group General Counsel may refer a matter to the Transurban Board for its approval where they consider that it is appropriate to do so.

Where a matter must be urgently disclosed to the ASX that is within the Transurban Board's reserved powers, all reasonable efforts will be made to convene a Transurban Board meeting at short notice. If in the circumstances this is not possible or practicable, the Chair (or in their absence, the CEO) is responsible for approving the disclosure. The Transurban Board must be informed of the disclosure at the first available opportunity following the release of the announcement.

The Transurban Board also considers whether there are any matters requiring disclosure in respect of items of business that it considers. This is a standing item on the Transurban Board meeting agenda. Individual directors also consider this when they become aware of information in the course of their performance of their duties as a director.

## **6.2 Specific procedures**

### **6.2.1 Authorised spokespersons**

The following persons are authorised (subject to compliance with the procedures set out in section 6.1) to make public statements of material information on behalf of Transurban:

- the Chair; and
- the CEO, or in the CEO's absence, the CFO.

The CEO may delegate this authority to another member of Personnel if both the CEO and the CFO will be unavailable at any time.

No Personnel may make public statements regarding material information, or interact with the media on behalf of Transurban, without the approval of the Chair or the CEO.

### **6.2.2 Presentations to investors and analysts**

Presentations to investors and analysts will usually be held in conjunction with the release of Transurban's financial results or the announcement of a major new initiative or development.

The material used in such presentations must be reviewed by the CEO and the Company Secretary or the Group General Counsel. Year end and half year end investor and analyst presentations must also be reviewed and approved by the Audit and Risk Committee and then the Transurban Board.

Presentation materials of any new and substantive investor or analyst presentation must be released to the ASX immediately prior to making the presentation.

### **6.2.3 One-on-one meetings and discussions**

In the case of one-on-one meetings or discussions with analysts, investors, governments, prospective partners and media representatives (including responses to queries), it is the responsibility of the member of Personnel involved in the meeting or responding to an enquiry to make sure that material information which has not been released to the ASX is not disclosed.

If the member of Personnel is in doubt concerning a response, the response must not be given until it has been reviewed and approved by the Head of Investor Relations or the Group General Counsel. They will notify and liaise with the Disclosure Officer pursuant to the procedure set out in section 6.1.

If any information is provided during the course of a meeting or in responding to an enquiry that has not been released to the market, the member of Personnel must notify the Disclosure Officer immediately.

### **6.2.4 Media releases**

All media releases dealing with material information are to be reviewed and approved by the General Manager, Corporate Affairs and Sustainability prior to release. The General Manager, Corporate Affairs and Sustainability will notify and liaise with the Disclosure Officer pursuant to the procedure set out in section 6.1. Media releases relating to material information requiring announcement to the ASX must not be made until confirmation of disclosure on the ASX has been received.

All other media releases are to be made in accordance with the Media and External Communications Policy.

### **6.2.5 Media and security price monitoring**

The General Manager, Corporate Affairs and Sustainability is responsible for monitoring media (including social media) of Transurban; and the Head of Investor Relations is responsible for monitoring the market price of Transurban Securities.

Where there is any unusual or unexpected security price movements or media coverage (including coverage in relation to price sensitive matters that have not yet been disclosed to the market), the General Manager, Corporate Affairs and Sustainability or the Head of Investor Relations will immediately report the activity to the CEO and the Disclosure Officer.

### **6.2.6 Presentations to conferences**

It is the responsibility of any Personnel making a presentation to a conference to make sure that material information which has not been released to the ASX is not disclosed in the presentation.

If the member of Personnel is in doubt concerning the content of the presentation, the presentation must be reviewed and approved by the Head of Investor Relations or the Group General Counsel. They will notify and liaise with the Disclosure Officer pursuant to the procedure set out in section 6.1.

### 6.2.7 Trading halts

In certain circumstances, Transurban may request the ASX to halt trading in Transurban Securities to maintain fair and informed trading in Transurban Securities or to otherwise manage Transurban's disclosure obligations.

The circumstances in which it may be appropriate to request a trading halt may include:

- if, during ASX trading hours, Transurban becomes aware of disclosable information but it is not in a position to issue an announcement straight away;
- if, outside ASX trading hours, Transurban becomes aware of disclosable information and anticipates that it will not be in a position to issue an announcement before trading next commences;
- where information has been leaked ahead of an announcement being made, and the information is having, or is likely to have, a material effect on the price or value of Transurban Securities; or
- if ASX has formally requested for Transurban to release information to correct or prevent a false market and it is not in the position to make an immediate announcement (see section 5.4).

In relation to a matter within the Transurban Board's reserved powers (see section 6.1.2 above), the Chair (or in the Chair's absence, the CEO) is authorised to request a trading halt.

In all other cases, the CEO (or in the CEO's absence, the CFO) is authorised to request a trading halt.

The Company Secretary (or in the Company Secretary's absence, the Group General Counsel) is responsible for liaising with the ASX in relation to the lodgment of a trading halt request. If both the Company Secretary and the Group General Counsel are unavailable, the CFO is responsible for coordinating the trading halt request.

Where a trading halt request is made, the Company Secretary must promptly notify the Transurban Board.

### 6.2.8 Profit forecasts and monitoring analysts' consensus

The CFO and the Head of Investor Relations are responsible for monitoring the general range of analysts' consensus forecasts regarding Transurban's earnings and comparing this to Transurban's internal forecasts and expected results.

If the CFO or the Head of Investor Relations (or any other Personnel) become aware of a material divergence between the market's expectations of Transurban's earnings and Transurban's own internal forecasts or expected results, the CFO or the Head of Investor Relations (or such other Personnel) must immediately notify the Disclosure Officer.

## 7. Confidentiality

All Personnel must maintain and protect the confidentiality of Transurban information as set out in the Code of Conduct. It is important that no one inadvertently or improperly discloses confidential information as this could put Transurban in breach of its obligations under the ASX Listing Rules and Corporations Act.

## 8. Management of this Policy

The Company Secretary has been nominated as the person with primary responsibility for the effective operation of this Policy and for all communications with the ASX in respect of Transurban's continuous disclosure obligations as the Disclosure Officer.

The Disclosure Officer is responsible for:

- liaising with the ASX in relation to continuous disclosure issues;
- ensuring that the system for the disclosure of all material information to the ASX in a timely fashion is operating;
- managing the receipt of any material information, coordinating the process of review of that information and the actual form of any required disclosure, including liaising with the CEO, the CFO, the Group General Counsel and external advisers (as necessary) in relation to the form of any ASX releases;
- arranging for the lodgment of ASX announcements and coordinating any requests for trading halts;
- liaising with members of the Executive Committee and the Transurban Board, as appropriate, in relation to the disclosure of information;
- keeping a record of all ASX releases that have been made and reasons for the disclosure or non-disclosure;
- liaising with the Head of Investor Relations to facilitate the timely publication of relevant ASX releases on Transurban's website and management of ensuing media and stakeholder interest;
- periodically reviewing the Policy, including the continuous disclosure procedure to check that it is operating effectively and whether any changes are required to the policy (including in light of changes to the Corporations Act or the ASX Listing Rules) and recommending any necessary changes; and
- preparing regular disclosure reports to the Transurban Board which advise of:
  - material matters considered and the form of disclosure (if any); and
  - any material changes to the continuous disclosure procedure.

## **9. Contraventions of continuous disclosure obligations and this policy**

Disciplinary action may be taken in respect of breaches by Personnel of this Policy.

Contraventions by Transurban of its continuous disclosure obligations may also have serious legal consequences and attract significant criminal or civil penalties for Transurban and Personnel involved in the contravention, and may expose Transurban to other financial or reputational damage.

## **10. Review of this Policy**

This Policy will be reviewed every two years, having regard to compliance with the Corporations Act, the ASX Listing Rules and corporate governance best practice. The Company Secretary will monitor the Policy's operation and applicable law and practice and recommend any changes to this Policy in the intervening period.

# Annexure A— Materiality guidelines

## Introduction

The following guidelines are provided to assist Personnel in identifying matters that may require disclosure in order to comply with Transurban's continuous disclosure obligations. The purpose of these guidelines is to identify matters which can then be considered more fully, with a view to determining whether disclosure is required.

All of the matters that will require consideration under these guidelines will not necessarily require disclosure. However if the information may be price sensitive, it should be immediately referred to the Disclosure Officer. Importantly, a matter may be required to be disclosed even if it does not come within any of the following categories.

The guidelines are both qualitative and quantitative.

## Qualitative guidelines

Qualitative matters that will need to be considered may include, but are not limited to, matters that:

- may have a significant impact on the operations of Transurban;
- may affect the viability of a Transurban entity to continue as a going concern;
- may impact on the integrity of the financial statements;
- may breach a regulatory compliance obligation when it is likely that any subsequent imposition of regulatory restrictions may impair operating capability;
- relate to a corporate activity that could have an effect on the value of Transurban Securities;
- might have an effect on the future business activities or strategic direction of Transurban;
- involve a change in regulation or law that could affect Transurban's business;
- involve a change in senior management structure;
- may have a material adverse effect on Transurban's reputation;
- involve a breach or threatened breach of a significant contractual obligation; and
- may in some other way be so onerous, unusual or outside the ordinary course of business that they ought to be considered.

Disclosure of any of these matters would be required if a reasonable person would expect it to have a material effect on the price or value of Transurban Securities. Further specific examples (drawn from ASX Listing Rule 3.1) are provided in Annexure B.

## Quantitative guidelines

The following quantitative matters will need to be considered to determine if disclosure is required:

- matters which potentially may affect Transurban's forecast profit (loss) before tax in any one year by 5% or more;
- matters which may affect Transurban's assets or liabilities by 5% or more based on the previous years' figures or forecasts, if any, given to the market;
- matters involving any claim against Transurban exceeding 5% of Transurban's consolidated assets; and
- a transaction where the amount payable or receivable is a significant proportion of the written down value of Transurban's consolidated assets (normally, an amount of 5% or more would be significant, but a smaller amount may be significant in a particular case).

# Annexure B— Information disclosure requirements

An entity must disclose any information that a reasonable person would expect to have a material effect on the price or value of securities issued by the entity. Set out below is an illustrative list of matters that may give rise to an obligation to make disclosure. Any such matter must be notified to the Disclosure Officer, who will determine whether disclosure is required.

This list is a guide only and should not be taken as an exhaustive list of issues to be disclosed.

## **Relevant information/matter**

1. A transaction that will lead to a significant change in the nature or scale of Transurban's activities.
2. A material acquisition or disposal.
3. The granting or withdrawal of a material licence.
4. The entry into, variation or termination of a material agreement.
5. Becoming a plaintiff or defendant in a material law suit.
6. The fact that Transurban's earnings will be materially different from market expectations.
7. The appointment of a liquidator, administrator or receiver.
8. The commission of an event of default under, or other event entitling a financier to terminate, a material financing facility.
9. Under subscriptions or over subscriptions to an issue of securities.
10. Giving or receiving a notice of intention to make a takeover.
11. Any notification by a Ratings Agency that it will review the credit rating of the entity.
